- Check the information booth for other events.

Washrooms are located throughout the grounds. Wheelchair accessible washrooms at the south end of Pioneer World.

People-movers travel around the grounds and parking lot all day. Just wait at a marked stop for pickup.

Anyone operating equipment during any day is required to attend the safety meeting at 8:00 am in the Ray Howden building that morning.

We wish to thank all of our sponsors for their generous support for the show and throughout the year.

PIONEER ACRES OF ALBERTA

Upcoming Events

STILL TO COME IN 2010

August 21, 22 – Blow Off Some Steam

We have stationary and portable steam engines and a steam tractor, too.

September 11, 12 – Stationery Engines

Farm life and industry as it was in early 1900's would not have been possible without engines to provide mechanical power. We have everything from the very small to the very large.

LOOKING FORWARD TO 2011

Most events for 2011 are in the planning stages so there are no specific dates available at this time. We are hoping to have a number of **Feature Weekends** next year, similar to past years, because they allow visitors a much more personal experience than our annual show. Of course, the highlight will still be our **Pioneer Acres 42nd Annual Show and Reunion on August 5, 6, and 7**, where there will be plenty to see and do for everyone. Next year's feature manufacturer will be **Allis-Chalmers**. Please check our website in the spring of 2011 for more details: www.pioneeracres.ab.ca

Horse Power

Featuring those magnificent animals and everything involved with them. We will have the Blacksmiths and Wheelwrights on site at the same time so you can have the complete experience of what many of our pioneering farmers had to go through. Lots of horse work in the field will give you an idea of the strength these versatile these animals have.

Family Life

Combining the Crown School, Long House, Beef Ring, Ray Howden Collection, and Pioneer World. Guides will be in each building and/or exhibit to explain what pioneer family life was like. Something for everyone.

Keep On Trucking

Our extensive collection of trucks is sure to fascinate anyone with an interest in big rigs. We might even run a convoy to a local coffee shop!

Steam and Stationary Engines

Pioneer Acres is home to one of the best collections of engines in Canada. The variety of our stationary engines will fascinate you and, of course, there's nothing quite like the sound of a steam engine to conjure up visions of a time long past.
